TOTAL AREA: 5.300 sqm

DATES AND PLANNING: 2005 - Competition (Second Place)

Redevelopment of the area for market and parking use. The competition organized by the City of Olgiate Comasco offers the opportunity to intervene in an urban area with a high architectural value. In this context, we interpreted the theme proposed as a unique opportunity to reconsider the relations among different elements of urban quality of Olgiate Comasco, reintegrating them in a global design.
