

BRAIN ART INSTALLATION

LOCATION: Milano

CLIENT: Matteo Ferretti artist

ARCHITECTONICAL DESIGNERS: Francesco Fulvi, Silvia Fecci, Simona Bernardoni, Marco Mosconi, Michele Sbarsi

DATES AND PLANNING: Outline Proposals, Detailed Proposals and Final Proposals

The base Concept for the installation was born from the idea by Matteo Ferretti artist; it is a element that produces power. This energy will go out from the "Brain" through light rays linking with the natural environment. These rays are the conceptual and physical support of the installation. The "Brain" will consist of photovoltaic panels and of recycled and recyclable materials. The Electric energy produced will allow the self-powered. The Brain want communicate an ecological message.
